

Globalisation (Student A)

1. How many of the products you regularly buy are produced abroad?
 2. Should countries learn to be self-sufficient or import the things they need?
 3. Is it right for large companies to move to poorer countries and hire cheaper workers?
 4. Has too much American culture spread around the world? Can it be stopped?
 5. Do you think political and economic unions like the EU are a good thing?
 6. Do you think there will be a single global currency some day?
 7. Is it possible to stop globalisation or is it too late?
-

Globalisation (Student B)

1. In general, are imported products better quality than home-produced ones?
 2. Would you ever leave your country for better wages somewhere else?
 3. Is it bad that McDonald's and Starbucks have stores in almost every country?
 4. Are nations losing their national identities because of globalisation?
 5. Will the whole world form a single society in future? Would this be a good thing?
 6. Has increased global travel made people more culturally aware?
 7. Many people believe that globalisation is a bad thing. Do you agree with them?
-

Globalisation (Student C)

1. Amazon is one of the largest global companies today. Do you like the work they do?
2. Should governments reduce immigration to protect local workers?
3. Do you prefer foreign food or your own country's cuisine?
4. Would you like to see a world without national borders? Why or why not?
5. Will everyone in the world speak English one day?
6. Do you think globalisation has made your country richer or poorer?
7. Is it possible to be an individual in a world of more than seven billion people?
